

Nabeel Shafqat

Full Stack Developer

Rawalpindi, Pakistan | nabeelshafqat56@gmail.com | 0310-5626647 | [LinkedIn](#)

Summary

Full Stack Developer specializing in MERN Stack and Next.js with experience building scalable web applications, REST APIs, and real-time systems across healthcare, e-commerce, IoT, and ride-booking platforms. Skilled in React.js, Node.js, Docker, Redis, and AWS deployment with a strong focus on performance optimization, clean architecture, and user experience.

Technical Skills

JavaScript (ES6+), TypeScript, Python, React.js, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, Redis, REST APIs, WebSockets, JWT Authentication, AI Integration, Microservices Architecture, OpenAI API, Docker, AWS EC2, Firebase, Tailwind CSS, Git, GitHub, Postman, Nginx, Agile Development

Experience

Full Stack Developer (Part-Time) — Codes Vista

01/2026 – 05/2026 | Pakistan

- Built and maintained 5+ scalable MERN Stack and Next.js applications, improving frontend responsiveness and backend performance for client projects.
- Optimized REST APIs and database queries, decreasing average response times by 35% and improving application scalability.
- Containerized and deployed applications using Docker, AWS EC2, VPS hosting, and Nginx, streamlining production deployment workflows.

MERN Stack Developer (Part-Time) — DevThrone

01/2024 – 12/2025 | Pakistan

- Delivered 10+ production-ready MERN applications serving e-commerce, healthcare, and ride-booking clients with scalable backend architecture.
- Integrated JWT authentication, payment gateways, Firebase services, and 15+ REST APIs across 6 client platforms, improving application security and scalability.
- Collaborated with a team of 4+ developers using GitHub, Postman, and Agile workflows to accelerate testing and feature delivery.

JavaScript Developer & Trainer (Part-Time) — Codes Vista

01/2023 – 12/2024 | Pakistan

- Enhanced UI responsiveness and reduced frontend load times across 6+ web applications using React.js and optimized component structures.
- Trained and mentored 40+ students in JavaScript, React.js, and practical full-stack development concepts.
- Developed reusable UI components that reduced frontend development time by 25% across multiple projects.

Education

BS Computer Science – PMAS Arid Agriculture University, Rawalpindi | 2022 – 2026

Intermediate in Computer Science – Govt. Gordon College, Rawalpindi | 2020 – 2022

Projects

AI-Based Recitation Tutor & Tajweed Correction System – Built an AI-powered Quran recitation platform with real-time Tajweed detection using Node.js, Python, Redis, Docker, and WebSockets.

Boxtech Iot – Engineered an IoT-based fleet management dashboard for live vehicle tracking, temperature monitoring, and real-time analytics.

Fair Mart – Created an e-commerce platform with product management, CSV imports, and loyalty point features.

Pak Care Link – Built a healthcare consultation platform with chat, video calls, appointment booking, and location-based search.

Trio Trips – Built a cab booking platform with live ride tracking, automated fare calculation, and secure payment integration.
